The striped parts of the Jumper are knitted sideways instead of the usual "upwards." They are knitted on to the welts as the work proceeds.

Unless using the thumb method in casting on, work into the back of all cast on sts. to produce firm edges.

TO MAKE UP.
SLEEVES.

Arrange first cast on 20 sts. in a pin-wheel covering edge of following 12 rows, sew in position. Sew next 5 pin-wheels in position, join up side seam and sew last pin-wheel over seam. Fold top at centre and join up, drawing tightly.
Sew pin-wheels of back and front in position, join up shoulder seams (end 16 rows and first pin-wheels) and side seams. Insert sleeves.

It is essential to rinse every trace of soap from a hand-knitted garment before drying. ALWAYS dry very slowly.

TO OBTAIN THE CORRECT DIMENSIONS—

Be sure to check your Tension with the Measure down the edge of the back page.

HOW TO ALTER STANDARD SIZES TO O.S. OR SMALLER SIZES.

1. Divide extra amount needed for bust measurement by 2, adding half to front and half to back. For patterns work half the stitches of pattern at each end of original instruction row. (Reverse for smaller sizes.)
2. **Armhole Shaping.** Measure inches required across shoulders, calculate number of stitches from tension. Allow one-third of stitches to each shoulder and neck. The difference between the number of stitches prior to shaping and as measured across shoulders is halved, and this number is cast off gradually at beginning and end of each row. (Same principle for smaller sizes.)
3. Usually with O.S. garments the front is required 2″ or 3″ longer than the back. Simplify this by "turning" after the welt is knitted. Begin by working to within 1″ of end and continue turning, increasing amount at end until there are about 5″ in centre. This gives extra fullness to front.
